Vienna Deep Learning Meetup

18:30 Introduction & Welcome by the meetup organizers & hosts

18:45 Talk 1: TiRex: Zero-Shot Forecasting Across Long and Short Horizons with Enhanced In-Context Learning
by Sebastian Böck (NXAI GmbH)

19:30 Announcements + Networking Break

20:00 Talk 2: Combining technological precision with social responsibility in training data preparation
by Andreas Schachl (Responsible Annotation Services)

20:45 Networking

~21:30 Wrap up & End

Announcements

Hilda @ Onefold AI
Konstantin @ Regularlab.ai

ONEFOLD AI

Agentic AI.
In production.

Vienna-born. Engineering-driven.
We design, build and deploy production-grade agentic systems — end to end.

25+
years combined experience

50+
AI engagements delivered

E2E
strategy to production

100%
European team

ONEFOLD AI

Two streams. One team.

We run client engagements and build our own AI product in parallel — same engineers, protected time for both streams.

Client projects

Custom agentic systems for enterprise — RAG pipelines, multi-step agentic workflows, tool use, knowledge graphs, etc.
Grounded in the client's infrastructure, data, and constraints.

Compliance & audit (AT) • Food science platform (US)

Our product

Our own agentic AI product serving as an organisation's strategic intelligence platform. Early stage, real influence over architecture and direction — the kind of input that only exists in a team this size.

In Development

3 core engineers. 2 freelancers.

ONEFOLD AI

WE'RE HIRING

AI Engineer

Vienna • Hybrid • Full-time • IT KV, adjusted to experience • English + (bonus) German-speaking

What you'll build

- Agentic workflows — orchestration, tool use, multi-step reasoning
- RAG pipelines end to end — chunking, embeddings, retrieval, re-ranking
- Evaluation pipelines — ship, measure, iterate on data
- Messy real-world data — PDFs, scans, unstructured enterprise content

What we offer

- Company participation (UWAs) — you're invested in what you build
- Real autonomy paired with real accountability
- Learning budget for conferences, courses, staying current
- Hybrid Vienna setup — no performative office time

careers@onefold.ai

ONEFOLD AI

Thank you.

Regular Lab

We are a new AI RnD lab based in Vienna.

We believe there is a lot of potential in developing new approaches to machine intelligence — beyond just scaling.

We are focused on developing new models that could plan, execute and learn from the feedback.

regularlab.ai

We are looking for **AI researches** in our core team focused on:

- RL (preferably model-based)
- World models
- POMDP

Vienna Deep Learning Meetup

Call for Speakers + Call for Venue Hosts!

Do you work on Deep Learning? In academia or industry?

We'd like to hear your story!

We are looking for speakers + venues for **future meetups**.

Short talks (20-30 min) or **long talks** (40-60 min) welcome.

Hosts & venues with 75-125 ppl capacity.

Talk to us in the break or send us an email!

contact@vdlm.at

Donations

Vienna Deep Learning Meetup

VDLM is a **zero-budget** endeavor.

Vienna Deep Learning Meetup

VDLM is a **zero-budget** endeavor.

Hosts provide location, drinks and snacks.

Vienna Deep Learning Meetup

Next Meetups:

- **May 19, 2026 at Bosch**
  Improving DL Optimizers (ISTA)
  Automatic Speech Recognition in Air Traffic Management (Frequentis)
- **June 10, 2026 at ÖBB Innovation Center**
  Agentic AI Systems in Production (Onefold AI)
  Exploratory Causal Inference (ISTA)
