

hosted by University of Vienna & SBA Research

Topic: CLIP Deep Dive

Send us announcements & job openings!

Welcome by the Meetup organizers:

Thomas Lidy iGroove

René Donner mva.ai

Jan Schlüter JKU Linz

Alex Schindler AIT & TU Wien

Pavol Harar ISTA & ACALAI

18:30 Welcome by organizers
Welcome by our host: SBA Research

18:45 A Deep Dive into CLIP embeddings by Damian Stewart

19:40 Announcements

20:00 Networking & Discussions over drinks & snacks

Welcome to Uni WienResearch Group Security and Privacy

and

SBA Research

Edgar Weippl & Rudolf Mayer

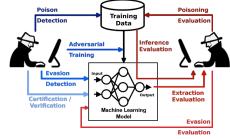

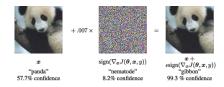

Security & Privacy @ Uni Wien wien wien SBA Research

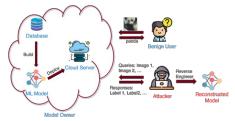

- -150 employees combined (research & consulting)
- Scientific Lead: Edgar Weippl
- Research topics
 - o Mathematics for Testing, Reliability and Information Security
 - Networks and Critical Infrastructures Security
 - Systems and (I)IoT Security
 - Decentralized Systems & Distributed Ledgers
 - Complexity and Resilience
- More details:
 - https://sec.cs.univie.ac.at/, https://www.sba-research.org/research

Why do we host the Vienna Deep Learning Meetup?

- Machine Learning & Data Management Group
 - Privacy-preserving Machine Learning
 - Federated Learning, Synthetic Data, Differential Privacy, ...
 - Security of Machine Learning / Adversarial ML
 - Evasion attacks (adversarial examples), data poisoning, ...
 - Protection of ML assets.
 - (Training) Data, models, outputs (e.g. genAl), ...
 - Machine Learning for security
 - Intrusion / malware / anomaly detection, ...
